The bauchell game last Decoration day in Derby attracted probably a larger concounte of pleasure seekers than any entertainment in this neighborhood for many a year. A fair estimate is a growd of four thousand. The two stands weng crowded and outside the ball field carriages occupied every available squere foot. The fellow who didn't go to this game "wasn't in it." It was the ball team cross bats with the favorite nine of the ambitious borough across stream. It was a close contest, a clever exhibition of pluck and skill. The looker-on had his fifteen cents well invested, and the actors on the "diamond" go into history with no tarnish on their escutcheon. The fight was a nice and even one, an interesting exchange of nest plays and stern patience to the eleverth inning. It was at this juncture that the excitement took on harsh sounds, and the vials of wrath were pouradacte. The arbiter of desfiny, or

Eleven witnesses were examined and after a careful study of the evidence secured it is the conclusion of the medical examiner that Voray came to his death by drowning at some time between 3:30 and 5 o'clock p. m. near the east abutment of the dam, and that no person known so far to the medical examiner is acquainted with the circumstances of said accident. A good deal has been said about a boy by the name of Georgie Wilson as possibly knowing to the whereabout of the missing Voray on the ill-fated afternoon, But his story is received by the medical examiner as sensational or else the boy was so affected by the many interviews suggesting his complicity with the death of Voray that Wilcox worked up the story to avoid further annoyance Dr. Beardsley gave many hours and dose application to a thorough sifting of every story, statement or rumor and his report to the coroner will probably be accepted as the only solution of

the sad mystery. The bill now pending before the degislature allowing the privilege of horse racing with pools to be a matter of local option is not unfavorably criticised in this locality. Race is a legion of lowers of horse-ficeh in this section and it was regretted by hundreds that the Derby Trotting Park meetings were o be discontinued. There were hun dreds who went to the races who never bet a postage stamp and it did not mar their enjoyment if they learned offsev eral pools who had parted with their dollars at the wheel of fortune or at the French pools. Their reasoning was the same as might obtain at a Vale-Princeton ball game that it concerned them not if a reckless youth burned up a ten dollar bill in an unlucky wager-that they were at the Yale field to see the game of ball and that between the rivals; his decisions had pointed guardians of would-be sports. The Derby races drew quite a crowd ball pronounced a "fout" by this well-every day and among those there were meaning referee, interfered with what many who gambled.
